

Promoting ethical and professional Orthotic and Prosthetic service delivery  
by advancing high standards of patient care.

### **Chief Operating Officer**

We are accepting applications ...

The South African Orthotic & Prosthetic Association is looking for a dynamic candidate to fill the position of Chief Operating Officer to take them into the next phase of re-building.

The Chief Operating Officer will facilitate and assist the Chairperson and National Executive Committee in all executive strategic processes. The Chief Operating Officer will act as the head of day to day operations and key improvement strategies. They should be able to formulate strong operational standards and should have a strong work ethic, good governance and administrative skills with a knowledge of the workings of the O&P industry.

#### **POSITION SUMMARY**

The successful candidate will need to provide enterprise-wide operational and strategic oversight of SAOPA, working under the leadership of the Chairperson and the National Executive Committee as well as with members, funders, suppliers, statutory bodies and other stakeholders. The successful candidate will be responsible for working throughout the organization to develop and implement strategies that improve members services, build brand recognition, produce member value, encourage best practices, propel change management, improve operational effectiveness, encourage innovation, and drive revenue generation. The position is also responsible for Membership and Marketing, and Governance with an emphasis on communication and public relations.

Remuneration will be based on experience and an initial contract period of six months.

If you feel that this is the future for you and you meet the above requirements, please send your CV and a motivation to [info@saopa.co.za](mailto:info@saopa.co.za) with the subject "COO application".

**Applications close Friday 16 July 2021.**
